

ENVIRONMENTAL AUDIT & VEGETATION RECLAMATION: North Karanpura

CMPDI Geomatics Division | Monitoring Period: 2024

Official Publication | Published by Ministry of Coal & CMPDI Ranchi | Date: 11 September 2026

This annual environmental audit details satellite remote sensing monitoring of land reclamation and vegetation cover for opencast projects in North Karanpura basin during 2024.

Remote sensing analysis utilizing high-resolution multispectral imagery demonstrated that biologically reclaimed land expanded by 240 hectares, achieving vegetation canopy densities exceeding 60%.

Ambient air quality monitoring across PM10 and PM2.5 sampling stations met National Ambient Air Quality Standards (NAAQS) benchmark thresholds through mist sprayers and enclosed conveyor belts.
