

ENVIRONMENTAL AUDIT & VEGETATION RECLAMATION: Singrauli

CMPDI Geomatics Division | Monitoring Period: 2024

Official Publication | Published by Ministry of Coal & CMPDI Ranchi | Date: 11 September 2026

This annual environmental audit details satellite remote sensing monitoring of land reclamation and vegetation cover for opencast projects in Singrauli basin during 2024.

Remote sensing analysis utilizing high-resolution multispectral imagery demonstrated that biologically reclaimed land expanded by 240 hectares, achieving vegetation canopy densities exceeding 60%.

Ambient air quality monitoring across PM10 and PM2.5 sampling stations met National Ambient Air Quality Standards (NAAQS) benchmark thresholds through mist sprayers and enclosed conveyor belts.
