Monthly Coal Logistics, Railway Evacuation & Pithead Stock Report

New Delhi | Statistical Division | March 2024 Bulletin

1. Dispatch Logistics & Indian Railways Rake Supply

Cumulative coal dispatch to the power utility sector during FY 2023-24 attained 618.5 MT, representing an increase of 8.2% compared to 572.0 MT in the corresponding previous year. Average daily rake availability from Indian Railways was sustained at 398 rakes/day, reaching peak despatches of 435 rakes/day during peak summer demand. Thermal power plants maintained healthy average coal inventory levels of 47.8 MT (equivalent to 19 days of generation), ensuring uninterrupted grid stability nationwide.

2. Captive and Commercial Coal Mining Blocks Performance

Production from auctioned Captive and Commercial coal mines crossed 147.20 MT in FY 2023-24, registering an unprecedented growth rate of 26.5% over the 116.33 MT achieved in FY 2022-23. A total of 56 captive and commercial mines were actively operating. E-auction premiums averaged 42.6% above floor price, demonstrating robust private investment appetite in coal gasification and washery initiatives.
