

# CMPDI DETAILED PROJECT REPORT (DPR) - Jayant Opencast 25MTY

Subsidiary: NCL | Capacity: 25.0 MT | Geological Basin: Singrauli Coalfield, MP

Official Publication | Published by Ministry of Coal & CMPDI Ranchi | Date: 11 September 2026

This Detailed Project Report (DPR) formulates the mine planning, equipment sizing, and geological stripping layout for Jayant Opencast 25MTY under NCL.

Geological Reserve & Setting: Situated in the Singrauli Coalfield, MP, the mine exploits thick coal seams belonging to the Barakar Formation. Total geological reserves are estimated at 480 Million Tonnes.

Rated Production Capacity: 25.0 MT under mechanized Opencast operations. Stripping ratio is projected at 3.20 m3/t, utilizing 42 m3 electric rope shovels, 240T rear dump trucks, and high-capacity bucket wheel systems.

Environmental Mitigation & FMC: Coal evacuation is planned via a First Mile Connectivity (FMC) rapid loading silo with in-pit crushing and a 4.2 km overland conveyor to eliminate surface haul truck emissions.

| Technical Parameter    | Project Specification      | DGMS / Ministry Compliance       |
|------------------------|----------------------------|----------------------------------|
| Subsidiary / Mine Name | NCL - Jayant_Opencast_25MT | Approved by CIL Board            |
| Rated Annual Capacity  | 25.0 MT                    | Environmental Clearance Granted  |
| Mining Method          | Opencast                   | High-wall Stability Factor > 1.3 |
| Stripping Ratio        | 3.20 m3/t                  | Continuous Reclamation Mandated  |
| Evacuation Mode        | Rapid Loading Silo / FMC   | Zero Surface Dust Spillage       |
