

CMPDI DETAILED PROJECT REPORT (DPR) - Manikpur Opencast SECL

Subsidiary: SECL | Capacity: 5.5 MT | Geological Basin: Korba Basin, Chhattisgarh

Official Publication | Published by Ministry of Coal & CMPDI Ranchi | Date: 11 September 2026

This Detailed Project Report (DPR) formulates the mine planning, equipment sizing, and geological stripping layout for Manikpur Opencast SECL under SECL.

Geological Reserve & Setting: Situated in the Korba Basin, Chhattisgarh, the mine exploits thick coal seams belonging to the Barakar Formation. Total geological reserves are estimated at 480 Million Tonnes.

Rated Production Capacity: 5.5 MT under mechanized Opencast operations. Stripping ratio is projected at 2.20 m3/t, utilizing 42 m3 electric rope shovels, 240T rear dump trucks, and high-capacity bucket wheel systems.

Environmental Mitigation & FMC: Coal evacuation is planned via a First Mile Connectivity (FMC) rapid loading silo with in-pit crushing and a 4.2 km overland conveyor to eliminate surface haul truck emissions.

Technical Parameter	Project Specification	DGMS / Ministry Compliance
Subsidiary / Mine Name	SECL - Manikpur_Opencast_SE	Approved by CIL Board
Rated Annual Capacity	5.5 MT	Environmental Clearance Granted
Mining Method	Opencast	High-wall Stability Factor > 1.3
Stripping Ratio	2.20 m3/t	Continuous Reclamation Mandated
Evacuation Mode	Rapid Loading Silo / FMC	Zero Surface Dust Spillage
